

Dalifos Space

rules

Dalifos

SPACE

1-lience

1- Our official Oses are D1, D2, D256, D257, D258, BD1, Dalifos space

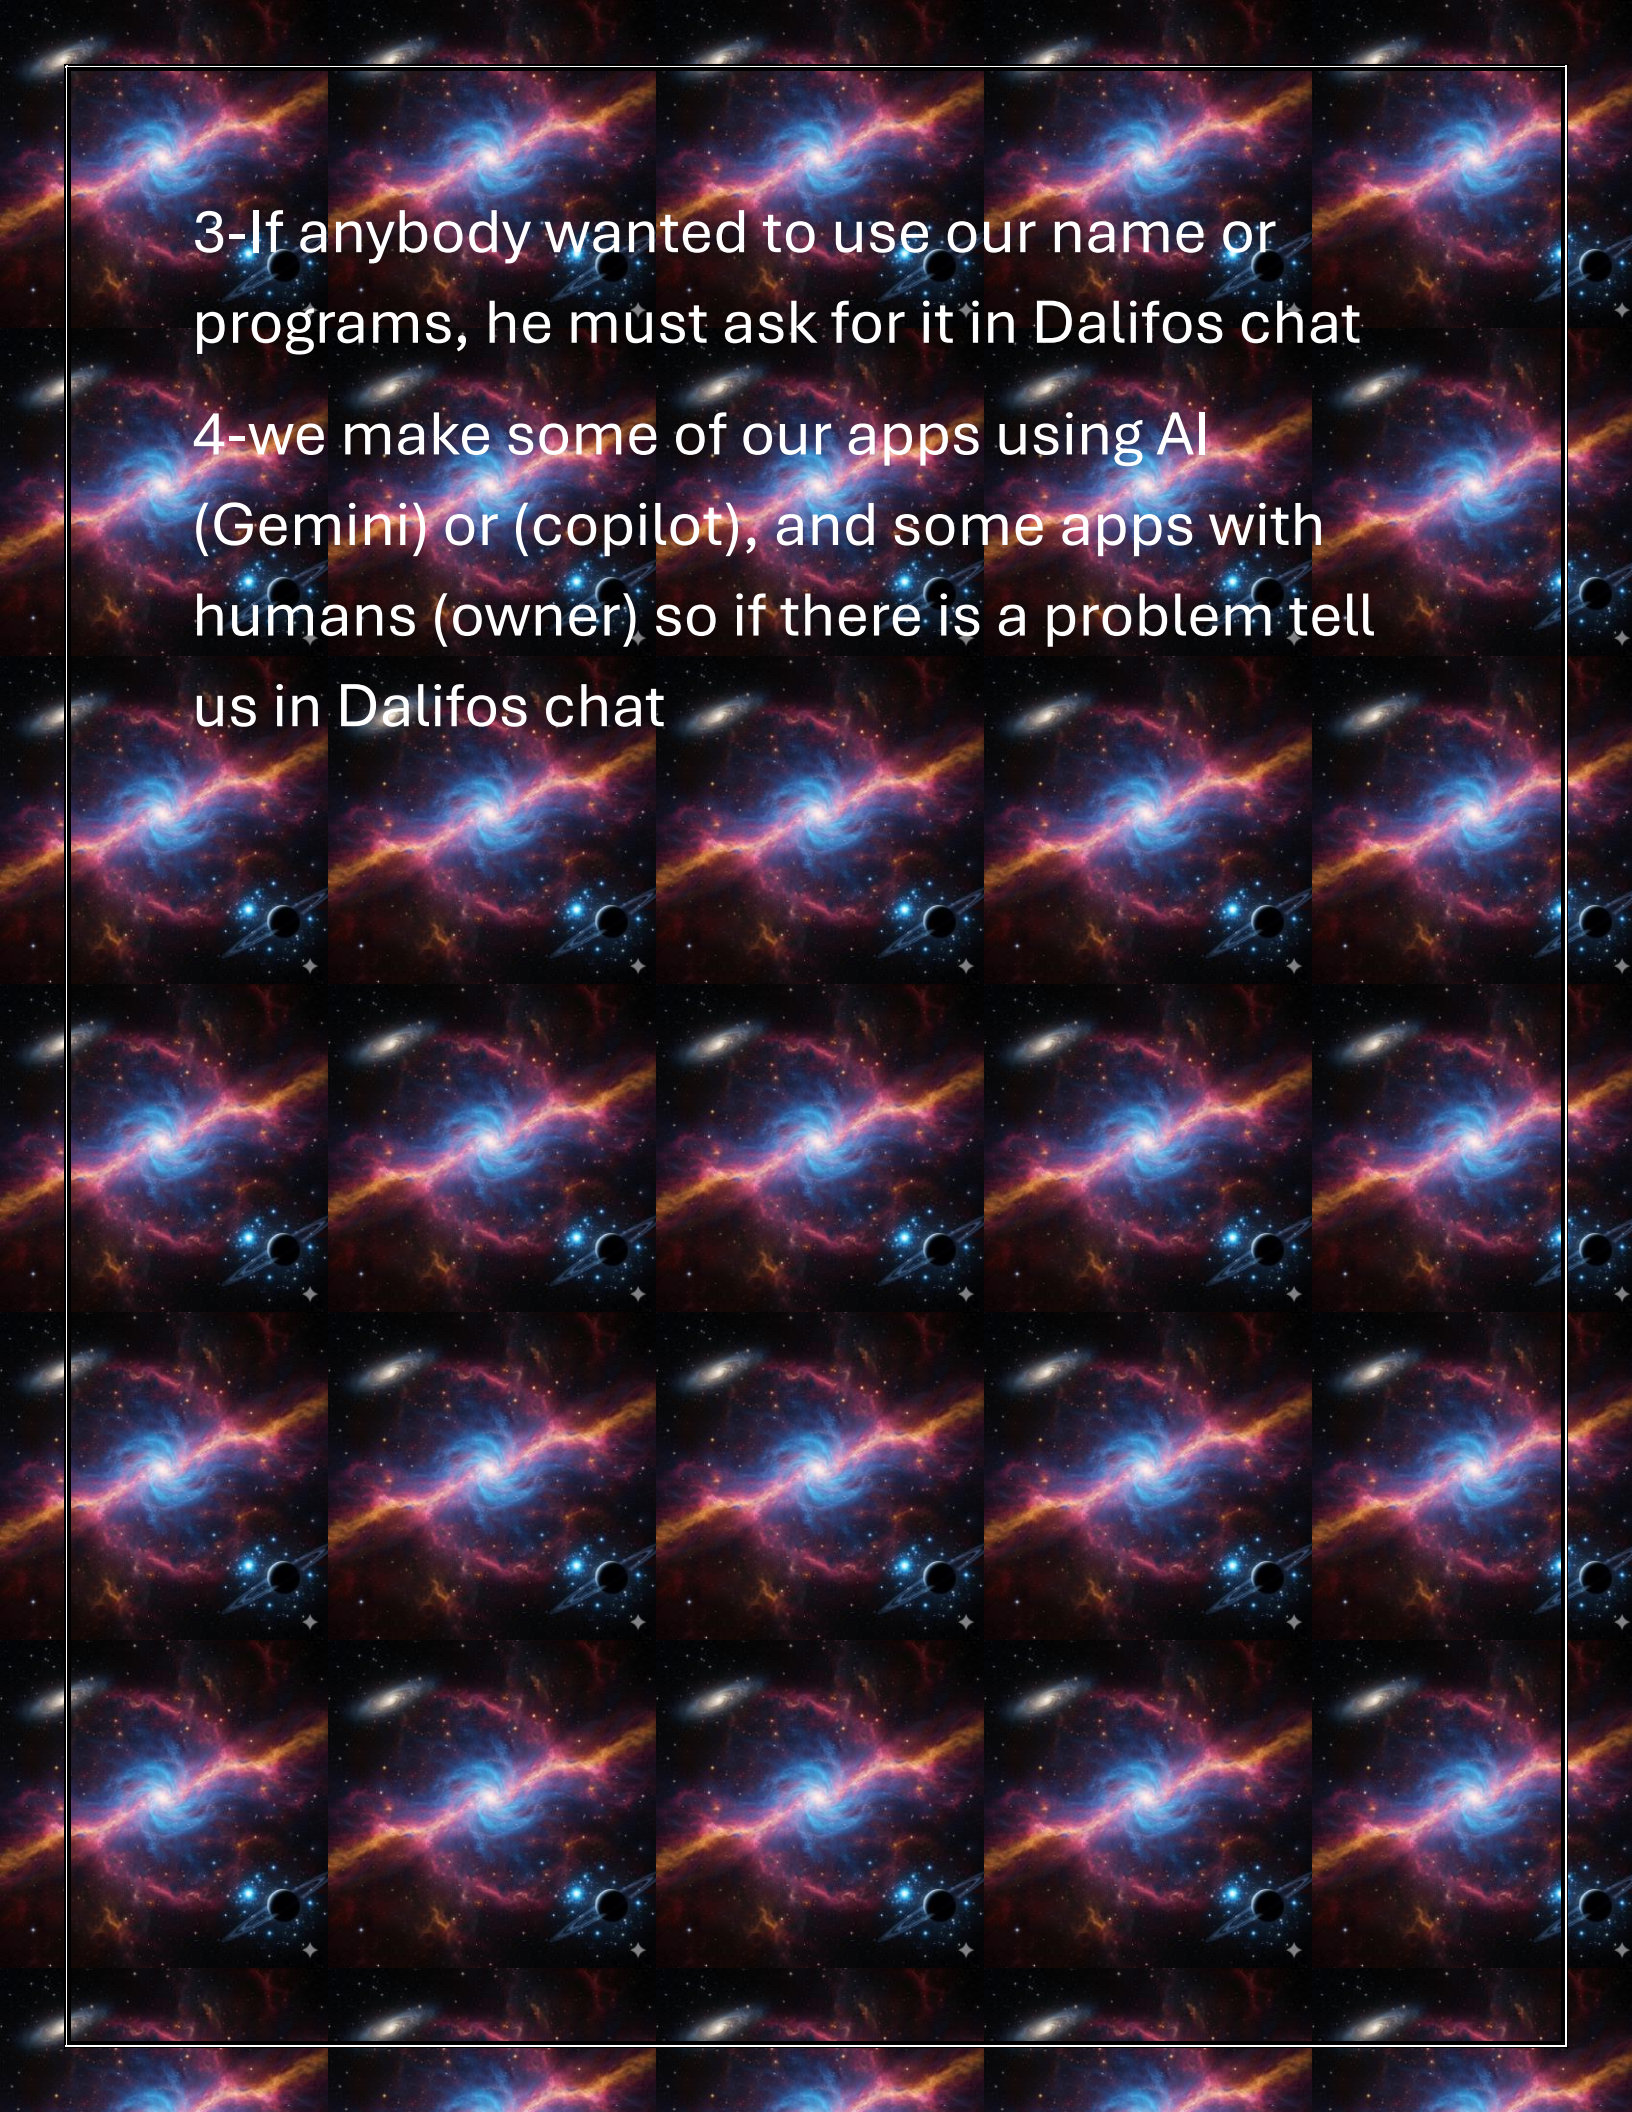

We Do not have any other OS. If names repeated, Check URL it must be like that:

<https://dodo-e.github.io/Dalifos-BD1/>

Or if you are using old PPT OS, you must download it from this link only:

https://drive.google.com/drive/folders/1T8yxbeJ_7scCNBTZv3saRLVO_iLFEAIT?usp=drive_link.

2- Our name is Dalifos and any other name even like it we are not responsible for it.

3-If anybody wanted to use our name or programs, he must ask for it in Dalifos chat

4-we make some of our apps using AI (Gemini) or (copilot), and some apps with humans (owner) so if there is a problem tell us in Dalifos chat

OS and coding

1- Any time if any Outdated OS (now, it is D1, D2) is hacked by hackers we cannot do anything because it is old. Also, any PPT OS is hacked by hackers cannot be fixed by Dalifos, because it is a Microsoft application not for Dalifos. If any website is Hacked, we will try to fix it if it is not GitHub (the launcher at web for us).

2- coding errors? Say is D chat.

3-our coding program is VS code.
